PROFESSIONAL SUMMARY

Dedicated IT professional with expertise in web development, project management, and IT support. Proficient in CSS, JavaScript, HTML, and Vue.js, with a strong track record in delivering high-impact projects on time and within budget. Skilled in optimizing operational efficiency and cybersecurity awareness.

WORK EXPERIENCE

Junior Software Developer

Redleaf Solutions Canada   July 2023 - December 2023
                                                                                (contract)

- Worked with a team of developers and stakeholders to create custom Vue.Js-based web applications for medical devices for multi-national clients.
- Demonstrated expertise in Vue.js, JavaScript, jQuery, and Bootstrap, specializing in crafting dynamic and user-friendly front-end solutions.
- Engineered responsive and interactive user interfaces, elevating user engagement and ensuring a seamless and enjoyable experience for end-users.
- Directed efforts toward UI development, consistently delivering customized solutions that precisely met clients' unique requirements, thereby enhancing overall user satisfaction.

Scryb Inc.

Scryb is Multi-National IT and Software company focusing on Cybersecurity and AI technology, home to the Headquarters of **Cybeats** which was acquired in 2022.

Cybersecurity Customer Success Manager

Cybeats   January 2022 - August 2022
                                                                     (Start-Up Company)

- Promoted to lead the Customer Success division of Cybeats.
- Created the internal customer success intake procedure for Cybeats and led 8 multinational clients through the SBOM management software.
- Generated SBOMs regularly and assisted clients with creating their internal SBOMs using CycloneDX and SPDX standards.
- Specialized in IoT device security, addressing unique challenges clients faced in the field, thereby increasing client retention.
- Elevated clients' understanding of security products by providing a high level of involvement.

Project Manager

Scryb Inc.   January 2021 - January 2022

- As a Project Manager, I orchestrated seamless communication within an internal team of key stakeholders, including customer support, software developers, and the CTO and CEO, ensuring clarity throughout the project. Collaborating closely with an external Project Manager at the testing facility, I spearheaded a team of 20 medical staff and coordinators, implementing efficient strategies for the smooth execution of COVID-19 testing operations. The result was a well-coordinated effort, both internally and externally, contributing to the overall success of the project and the effective management of testing procedures.

- Demonstrating a commitment to continuous learning and professional growth.

Conflict Resolution and Team Harmony:
- Fostering team harmony through effective conflict resolution.

Creative Thinking and Innovation:
- Bringing creative solutions to the table for innovative problem-solving.

LANGUAGES

English and Hebrew

WORK EXPERIENCE

- Played a pivotal role in crafting user-friendly UI elements for the COVID-19 test scheduling software across multiple regions, cultivating strong partnerships with government stakeholders. Tasked with improving the software's usability, I collaborated extensively with cross-functional teams and engaged proactively with government representatives. The outcome was the establishment of a resilient and collaborative rapport with stakeholders, contributing significantly to the success of the COVID-19 testing program in multiple provinces within its first 3 months of operation.
- Managed the implementation of critical software at Toronto Pearson Airport for COVID-19 testing in 2021. Oversaw the entire process, from planning to execution, ensuring seamless operations. Proactively took charge by coordinating with stakeholders, troubleshooting issues, and optimizing the software workflow, resulting in the successful completion of over 50,000 tests within the airport. As a result, significantly contributed to the airport's comprehensive COVID-19 testing initiative and played a pivotal role in safeguarding public health during a challenging time.

Apiqu

Apiqu is Multi-National Software Development company focusing on Sitecore products and custom web applications, home to the Headquarters of **Procally** a start-up that was established in 2019. I was promoted from the **Procally** division to **Apiqu** where my focus was on external stakeholders.

Project Manager

Apiqu   January 2020 - October 2020

- Promoted to Project Manager at **Apiqu** from **Procally**, I demonstrated strong potential as a Product Owner by facilitating communication among multinational development teams and stakeholders. This promotion reflects my ability to drive successful project outcomes through effective collaboration and communication.
- As a Project Manager at Apiqu, I successfully managed five diverse projects encompassing fintech startups, government entities, municipal transportation, and educational institutions. Through meticulous oversight, all projects ran seamlessly, leading to client satisfaction and contract renewals.
- With a team of Sitecore engineers, business analysts, and project managers, we introduced Sitecore products to multiple clients, effectively reducing their internal development spending.

Product Owner

Procally   December 2019 - October 2020
                                                  (Start-Up Company)

- Promoted to Product Owner at Procally in recognition of my contributions. Transitioned at the request of the CEO, aligning with my growing interest in the software development field.
- Initiated the development process by drafting the initial website layout and design, emphasizing user experience to ensure a user-friendly interface.
- Facilitated communication among multinational development teams as well as the CTO and COO, ensuring seamless collaboration across stakeholders. This proactive communication strategy resulted in the expedited achievement of development milestones ahead of schedule.

WORK EXPERIENCE

Software and Business Development Coordinator

Procally   September 2019 - December 2019
(Start-Up Company)

- Successfully attracted 800 users to the web application pre-launch, aiding in feature testing and informing long-term decisions/pivots towards specific markets.
- Led a marketing campaign during the startup's prelaunch phase, executing various strategies to build anticipation and generate interest. Organized multiple meet and greets with the team at tech and startup events, enhancing visibility and fostering valuable connections.
